FOREWORD.

The series of letters which are now being presented to the public in a collected form were originally contributed to the columns of the *Tribune* newspaper. National efficiency and advancement can be secured only by a sound educational system. We submit, for the earnest consideration of all interested in the true welfare of this country, a few suggestions dictated by the experience of educationists here and in the advanced countries of the world.

RUCHI RAM SAHNI.
SUNDAR DAS SURI.
